Basic Information

- Place of Origin: China
- Minimum Order Quantity: 100Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: Tamoxifen Citrate
- Appearance: White Powder
- Cas: 54965-24-1
- Purity: 99%
- Usage: Gyno Anti
- Highlight: **Nolvadex Tamoxifen Citrate Raw Powder, CAS 54965-24-1, Tamoxifen Citrate Powder**

Product Description

High Quality Nolvadex Tamoxifen Citrate Raw Powder CAS 54965-24-1 For Gyno Anti

Product name: Tamoxifen Citrate

Alias: Tamoxifen, Nolvadex, STERANABOL, TURINABOL, kessar; noltam; tamofen

CAS No: 54965-24-1

EINECS: 259-415-2

Assay: 99%

Molecular Formula: $C_{26}H_{29}NO.C_6H_8O_7$

Molecular weight: 563.64

MP: 140-144 °C

Drug Class: Anabolic Androgenic medicine

Usage: the goods to anti- fertility inducer, the objects in dysfunctional uterine bleeding, polycystic ovary, menstrual disorders and drug-induced amenorrhea and other gynecologic diseases; It is used as a first line defense against breast cancer.

Discription:

Tamoxifen is a drug. There are two isomers of Z type and E type. The physical and chemical properties of the two are different, and the physiological activities are also different. The E type has weak activity, and the Z type has effect. If there is an receptor (ER) in breast cancer cells, enters the tumor cells and binds to it, which promotes the synthesis of DNA and m-RNA of tumor cells and stimulates the growth of tumor cells. The Z-type isomer of tamoxifen enters the cell, competes with ER to form a receptor complex, prevents the effect from being exerted, and thus inhibits the proliferation of breast cancer cells.

Tamoxifen citrate is a medicine used to prevent breast cancer in women and to treat breast cancer in women and men. It is also being studied for the treatment of other types of cancer. It is used to treat Albright's syndrome.

Serious side effects include a slightly increased risk of uterine cancer, stroke, vision problems, and pulmonary embolism. Common side effects include menstrual irregularities, weight loss, and hot flashes. May harm a baby if taken during pregnancy or breastfeeding. It is a selective receptor modulator (SERM) that works by reducing factors that increase breast cell growth and increasing factors that decrease breast cell growth.

Tamoxifen citrate was discovered in 1967. It is included on the World Health Organization's List of Essential Medicines, the most effective and safe medicines needed by health systems. Tamoxifen citrate is a generic drug.

Specification:

COA:

Product name	Tamoxifen citrate (Nolvadex)	
Appearance	White crystalline powder	
Identification	IR , UV conform	Conform
Loss on drying	≤0.5ml	0.21ml
Residue on ignition	Not more than 0.2%	0.07ml
Iron	Not more than 0.005%	0.0017%
Heavy metals	Not more than 0.001%	0.0006%
Related substances	Total: Not more than 1.0%	0.35%
	Individual: Not more than 0.5%	0.13%
E-isomer	Not more than 0.3%	0.18%
Organic volatile impurities	Conforms	Conforms
Assay	99.0~101.0%	99.6%

Applications:

1. Tamoxifen citrate is not an anabolic medicine, but is used to control the side effects.
 2. Tamoxifen citrate is a mixed agonist/antagonist of the same type as Clomid.
 3. Tamoxifen citrate is the raw material of Novad.
 4. Tamoxifen citrate is also a drug used to treat cancer.
 5. Tamoxifen citrate is very similar to Clomid.
 6. Tamoxifen citrate has the same effect as Clomid in all tissues.
- For the treatment of advanced, recurrent breast and ovarian cancer and other diseases. Used as an anti-tumor raw material.
Biological Activity: receptor antagonist/partial agonist. Selective and potent inhibitors of mammalian sterol isomerase.
Neuroprotection in female rats in vivo. High-affinity agonist of the membrane receptor GPR30.

Q1: Do you offer free sample?

A: Of course, we will offer free sample if you pay shipping fees.

Q2: How to solve the quality problem?

A: We supply high quality products and quality issue near to zero. If it happens caused by occasional case, we will reship again or compensate customer loss, but customer need show us the evidence of problems or test report.

Q3: Whether transportation is safe and whether to reship if seized?

A: Yes, we offer almost 100% Shipping line with safe delivery. If seized unfortunately, we will ship and I am sure no custom issue.

Q4: ETA ?

A: Pack sent out in 2-3 days and offer tracking numbers after payment. ETA not the same decide by destination country. Please contact us for details (always 10-15 days).

Q5: Do you have any discount?

A: The price is negotiable. Plz shoot us your order content, we will quote a fair price.

Q6: What is your minimum order?

A: Usually MOQ is 100g. But depends on the items and your requirements, we also can support small quantity, such as 20g and 50g.

Q7: How to order?

A: E-mail or message us that includes your order like format below:

product A 100g

product B 10vials

delivery country:

Our sales will quote a total cost includes shipping fees and each item fees in 12 hours regularly.

Our will satisfy your purchase and supply professional guide
